After the deadline for Vendors to submit questions regarding the specifications had passed, ITS learned that MDOT's Websense license and support had already been renewed in the manufacturer's system. This situation has been corrected and the renewal has been cancelled. MDOT is currently using a trial key that expires on December 17, 2014. All vendors should now be able to receive quotes from the manufacturer. Thank you for your patience while this was corrected. The procurement project schedule is being modified as follows:
