The following question was submitted to ITS and is being presented as it was submitted, except to remove any reference to a specific vendor. This information should assist you in formulating your response.

Question 1: Exinda isn't one of the manufacturers we partner with. If it was a one off request from a customer of mine I would look into it, but in a bid situation I wouldn't be competitive. If the end user is open to looking at other solutions, possibly ones they could save money on, I can have someone on my networking solutions team look into it. If the end user is set on Exinda, then I will need to no-bid?

Response: MCCB has established an agency/institution "manufacturer standard" for the requested Exinda products; therefore, no other proposed solutions will be accepted.

LOC responses are due May 10, 2012, at 3:00 p.m. (Central Time).
